

Reference testimonials

“Will is easy to work with. His approach is thoughtful, considered, thorough and creative. He is extremely knowledgeable about construction, permitting, and processes on the shoreline, knowledge that is important indeed when building or renovating in a tough environmental and regulatory area. As shoreline zoning continues to evolve at a rapid pace, Will's expertise and ability to anticipate possible issues is invaluable.”

Joseph Paduda
Principal
Health Strategy Associates, LLC

"Will Thomson is wonderfully relentless in pursuing the details that make a design and a building a success or not. He is someone who can be relied upon."

Robert Patricelli

"Using great sensitivity to sites and existing historic architecture, Will Thompson creates pleasing and practical designs that are both beautiful and user-friendly. Will employs state of the art sustainable technology whenever possible for energy efficiency and economy, as well as maintaining awareness of clients' needs and cues from the natural surroundings. He is also well experienced with zoning regulations, permits, and historic district requirements, is an excellent communicator and is very hands-on with the entire building process."

Rebecca Bunting

“Coastline Consulting & Development, LLC conducted the construction work on the Jacobs Beach Boardwalk under the direction and guidance of Will Thompson. In addition to his design work, Will is very knowledgeable regarding the construction aspects of the project and the various challenges faced by contractors. It was a pleasure working with a designer with this level of field experience. We look forward to working with Will again on the next project.”

Mark Jackson
President & Senior Project Manager
Coastline Consulting & Development

“Will is very detailed in his work. He has a great understanding of how his designs will affect the trades on the jobsite. I enjoyed working with Will.”

David Milano
Milano Development Corp.

“Will has always been a pleasure to work with. He is thorough, always professional, and delivered as promised.”

Joe Ametrano

“Privately and in a role as liaison to the Guilford Park and rec commission from the Guilford Standing Building Committee I have had the pleasure in dealing with Will Thompson, he went way beyond the scope of the contract to make sure the project was absolutely as good as it could be given the restraints of cost and time. A pleasure to work with; a terrific result. I would certainly seek Will out for any future project I am involved with.”

Jim Goodridge

“We needed interior storage and Will Thompson designed a clever and beautiful cabinet system that was completely integral to the existing cabinetry and decor. It was installed beautifully and we love it!”

Tobie Meisel

“Will is an innovative architect who understands the importance of low-impact, rugged design. Our work with Will resulted in the Diamond Pier being specified on two major public works projects.” Said Rick Gagliano, Founder and President of Pin Foundations. “Both projects are excellent applications for the Diamond Pier footing and we found Will to be an excellent partner as we worked together through the design, bidding and construction process. We look forward to our next project together.”

“Will does a great job of keeping everyone involved and updated as a project evolves.” Says Mike Donoghue, Pin Foundations Director of Commercial Sales. “We experienced first hand what an excellent job Will does of keeping vendors, municipalities and really, all stakeholders, connected and coordinated. We have found working with Will to be a smooth, professional and efficient experience.”

Pin Foundations Inc.

"Will Thompsons designs were excellent. He achieved the openness and function that we desired."

Jim Trefz. Madison

“Will Thompson's beautiful design for Guilford's Jacob's Beach was sensitive to ecological factors and egalitarian in that it has made the beach and it's resources accessible to all ages and interests.”

Shirley Girioni

“I have had the pleasure in working with Will Thompson. He was extremely attentive to my needs and always had valuable information in regard to my proposed project. Not only was his knowledge key in helping plan the future of my business, but he was also easy to get a hold of. If he was not available to answer my calls he would send me an email stating that he had received the message and would be getting back to me

shortly. I have enjoyed knowing and working with Will and refer him to anyone looking for architectural expertise.”

Dr. AJ Gagliardi

“Working with Will Thompson has been an absolute pleasure. Not only is he extremely professional and attuned to the small details but his creativity comes through in his fantastic designs. He was able to guide our organization through the design, permitting and sub-contracting of the amazing new boardwalk and overlook platform at Chittenden Park. He went above and beyond in every aspect of the project. We couldn’t recommend him more highly!”
